

Osmar Morales

AI Platform Leadership & Agentic Systems

Miami, FL | osmarmorales1@gmail.com

osmarmorales.io | linkedin.com/in/osmarmorales | github.com/osmarmorales1

I build AI-native teams.

I build the systems that make teams more capable: petabyte-scale data automation, agent platforms and self-hosted AI. I turn complex work into reusable workflows and intuitive tools that help people deliver more with the resources they have.

3x

Delivery pace

With the same resources

500+

AI platform users

Organic adoption

5 regions

Global adoption

Across Visa teams

PROFESSIONAL EXPERIENCE

Visa | Director, AI Agent Platform

October 2024 - Present

Lead a team of 10.

- Created Agent Factory to turn data-science teams into AI-native builders, **tripling delivery pace with the same resources** for 500+ users across five regions.
- Built a learning loop that captures workflows as reusable skills and recommends them at runtime; a shared Second Brain lets teams build on collective knowledge.
- Built V Agent (Visa super agent) to orchestrate agents, tools and workflows across connected Visa systems through one intuitive interface.
- Enabled shared access to self-hosted open models and compute, simplifying local, remote and cloud inference through on-premises orchestration.
- Operationalized hundreds of agents for work lasting hours and days, with AI governance, cybersecurity monitoring, scoped access and human review.

Visa | Director, Data Engineering

November 2020 - September 2024

Led a team of 7 data engineers.

- Built an end-to-end automation platform for **petabyte-scale data**, standardizing pipelines, transformations and recurring data processes.
- Reduced repetitive engineering work with reusable feature pipelines and automated data-quality controls, accelerating analytics and ML delivery.
- Scaled delivery through a shared MLOps and CI/CD foundation, migrating **1k+ repositories and 500+ pipelines** without disrupting business workflows.

Visa | Manager, Data Analytics

November 2018 - November 2020

- Turned **weeks of analytics preparation into hours** and enabled 40+ colleagues to run pipelines through Azure DevOps self-service automation.

Osmar Morales

CAREER EVIDENCE / TECHNICAL DEPTH

EARLIER CAREER

FedEx Express | Data Scientist

August 2016 - November 2018

- Built executive reporting and BI platforms that gave leaders financial visibility across a \$1.5B business.

TracFone Wireless | Revenue Systems Analyst

February 2013 - August 2016

- Cut revenue analysis time by two-thirds with analytical models and rebuilt ETL for a 25M-subscriber business.

FedEx Express | Process Automation Developer

March 2012 - February 2013

- Cut reconciliation time 70% with custom software and standardized reporting across Latin America and the Caribbean.

Davis Quality, Inc. | Systems Accountant

January 2007 - January 2012

- Built accounting and data systems that improved financial visibility and planning.

INDEPENDENT AI RESEARCH

Elygent | Independent AI Lab

October 2025 - Present

- Use Elygent, the company I founded, as an independent lab to deepen AI engineering expertise through hands-on experiments.
- Enabled tool and knowledge reuse across AI environments through LLM- and harness-agnostic API, CLI and MCP integrations.
- Built an Agentic Slack collaboration system and AI orchestration platform, connecting human-agent conversations to delegated work and isolated computer use.
- Self-hosted open models on shared compute; exploring digital twins and AI ontology.

AI ENGINEERING AND TECHNICAL CAPABILITIES

Agentic AI: Claude Code/Codex harnesses, LangChain ecosystem, APIs/CLIs/MCP/A2A, terminal workflows and computer use.

LLMOps: Self-hosted open-source/open-weight models (Kimi, GLM), routing, RAG, evaluations and observability.

Shared & distributed compute: Linux VPS, Docker, Kubernetes; local, remote and cloud inference.

Data and MLOps: Python, SQL, Spark, Apache Airflow; feature engineering platforms, feature stores and data quality.

CI/CD & cybersecurity: GitHub, Jenkins, Azure DevOps; security monitoring, scoped access and audit trails.

EDUCATION, RECOGNITION AND LANGUAGES

Florida International University | BBA, Finance; Mathematics minor | 2015. **Miami Dade College** | AA, Mathematics | 2008.

Harvard Extension School | Management and leadership communication, professional development | 2018-2020.

Visa LAC Support Excellence Award, 2026; FedEx Express LAC Professional of the Year, 2017; five Visa Technical Innovation **team awards**, 2023-2025.

Languages: English and Spanish; Portuguese (beginner).
