I bring teams to the AI frontier.

Payments technology leader connecting enterprise AI, MLOps and infrastructure across public cloud, private cloud and on-premises environments. My **AI factory approach** turns reusable agents, governed tools and shared knowledge into reliable execution. I combine hands-on architecture with platform roadmaps, cross-market delivery, team enablement and executive decision support.

PROFESSIONAL EXPERIENCE

Visa | Director, AI Agent Platform

October 2025 - Present

- **Architect, build and operate Agent Factory**, which grew organically to **500+ total users**. Package repeated work into reusable agents and versioned skills, supported by regular releases and hands-on enablement.
- Built a multi-agent platform across **five markets and two regions**, with container, signed macOS desktop and **private-cloud compute, storage and network services**.
- Integrated **MCP, APIs, knowledge retrieval and model routing** with scoped service accounts, usage limits, governed skill releases and approval gates.
- Designed checkpointed state, isolated task contexts, independent validation and human review for recoverable, inspectable execution.

Visa | Director, Data Engineering

November 2020 - September 2025

- Led **seven data engineers and a separate six-person AI workstream**; expanded delivery from one pilot to **20 concurrent cross-market projects**.
- Established a regional MLOps practice in 2022 and **migrated 1k+ repositories and 500+ pipelines without disrupting delivery**. Standardized reproducible pipelines, model registry, feature management and data-quality checks.
- Built agent-assisted benchmarking and authorization-analytics workflows, combining reusable data foundations, independent validation and human review.

Visa | Manager, Data Analytics

November 2018 - November 2020

- Modernized core data refresh and issuer analytics foundations, supporting reusable reporting and self-service decision experiences.
- Built Azure DevOps pipeline automation that enabled **40+ colleagues** to use self-service workflows without Unix expertise.

Osmar Morales

CAREER EVIDENCE / TECHNICAL DEPTH

EARLIER CAREER

FedEx Express | Data Scientist | August 2016 - November 2018

- Built finance reporting and mobile dashboards; coordinated distributed business-intelligence delivery.

TracFone Wireless | Revenue Systems Analyst | February 2013 - August 2016

- Rebuilt ETL and revenue-recognition reporting, applying statistical models and GAAP/SOX controls.

FedEx Express | Process Automation Developer | March 2012 - February 2013

- Automated financial reporting and reconciliation; reduced reconciliation time **70%** across Latin America and the Caribbean.

Davis Quality, Inc. | Systems Accountant | January 2007 - January 2012

- Modernized accounting systems and digital reporting for financial visibility and planning.

AI practice progression: ChatGPT/Copilot evaluation in **2022**; agentic workflow initiatives in **2024**; formal AI platform role in October 2025.

INDEPENDENT ENGINEERING

Elygent | Independent AI platform pilot

- Integrate **OpenClaw, Hermes, Paperclip, Buzz, GBrain and GStack** through shared MCP capabilities, scoped knowledge and accountable work ownership.

- Built a public sandbox for isolated agents, visible specialist handoffs and live browser work with human review; validated execution and access boundaries.

- Build **cloud agents and native Buzz collaboration**; explore sharing locally hosted open-weight models.

TECHNICAL CAPABILITIES

AI platforms: Multi-agent orchestration, APIs/MCP, RAG/knowledge retrieval, model routing, evaluations, tracing, scoped access and human approval.

Cloud & infrastructure: Public/private cloud and on-premises delivery; Kubernetes/containers, VMs, NAS, S3-compatible object and block storage, load balancing, DNS and Day 2 operations.

Data and MLOps: Python, SQL/PostgreSQL, Spark, Hadoop/Hive, MLflow, Feast, Deequ, GitHub, Jenkins, Azure DevOps, Tableau and Power BI.

Independent platform: TypeScript, React, Node.js, Linux/VPS, Docker, Redis, systemd, Caddy, Vercel, WebMCP and agent-guided knowledge retrieval.

Leadership: Platform roadmaps, architecture, cross-market delivery, stakeholder alignment and team enablement.

EDUCATION, RECOGNITION AND LANGUAGES

Florida International University | BBA, Finance; Mathematics minor | 2015

Miami Dade College | AA, Mathematics | 2008

Harvard Extension School | Management Skills for Emerging Leaders; Leadership Communication | 2018-2020 (professional development)

Visa LAC Support Excellence Award, 2026; FedEx Express LAC Professional of the Year, 2017; five Visa Technical Innovation **team awards**, 2023-2025.

Languages: English and Spanish.
