PROFESSIONAL EXPERIENCE

Visa | Director, AI Agent Platform

October 2024 - Present

- **Created Agent Factory** to standardize AI-native work across data-science teams and make agents accessible to business users.
- **Built the AI Loop:** capture recurring workflows as skills, improve them through collective knowledge, and automatically recommend them at runtime.
- **Built V Agent (Visa Agents)**, a super-agent interface for delegating across Buzz, Paperclip, OpenClaw and cloud agents.
- **Created VCA Brain:** shared project context and business memory that let teams reuse observations and build on prior work.
- **Unified local, remote and cloud compute** through on-premises orchestration, including Windows VDIs; connected enterprise infrastructure to business execution through an **AI factory approach**.
- **Deployed Buzz** as one collaboration workspace for people and agents, connecting conversations to delegated work.
- **Operationalized agents running for hours and days** toward business objectives, with checkpoints, independent validation and human review.

Visa | Director, Data Engineering

November 2020 - September 2024

- Led **seven data engineers and a six-person AI workstream**; grew delivery from one pilot to **20 concurrent cross-market projects**.
- Established the regional MLOps practice in 2022; **migrated 1k+ repositories and 500+ pipelines without disrupting delivery**, standardizing pipelines, model registry, feature management and data quality.
